Business Solution Partners Advanced Manufacturing & Distribution

A Powerful Solution to Streamline Operations and Run Your Business More Profitably

Distribution and manufacturing organizations like yours face plenty of challenges today. Competition from new channels and technologies.... Ever-increasing customer demands.... Increased globalization.... The list goes on and on.

To succeed in this competitive marketplace, you need a well integrated business solution to help you respond quickly to your customers, anticipate consumer trends, shorten manufacturing and distribution cycle times and maintain tight control over operations. Introducing Advanced Manufacturing & Distribution, from Business Solution Partners. Advanced Manufacturing & Distribution is a single, fully integrated technology platform designed to help you manage every aspect of your manufacturing or distribution business—from order entry and procurement to inventory maintenance and shipment management.

With Advanced Manufacturing & Distribution, the days of labor-intensive, error-prone manual or spreadsheet-based accounting, customer management, billing, shipping processes are gone forever, as is inaccurate information due to multiple, disparate systems and databases. Based on the flexible and powerful Microsoft Dynamics™ platform, Advanced Manufacturing & Distribution can help you streamline operations, reduce costs, improve supply chain processes, manage inventory more effectively, take advantage of business insights—and much more.

Software That's Easy to Use

With Advanced Manufacturing & Distribution from Business Solution Partners, you don't need to be a large organization to enjoy the big-league advantages of powerful and sophisticated distribution and manufacturing software. Built on a powerful Microsoft Dynamics platform using industry standard technologies, Advanced Manufacturing & Distribution is easy to implement, learn, customize and maintain.

Because it uses proven Microsoft® technologies, Advanced Manufacturing & Distribution provides a familiar graphical "look" that's easy to understand and use. You or your employees simply enter information once and it becomes accessible to everyone who needs it. That means you can focus your energy on managing your business, serving your customers and increasing your profitability.

This software is designed to help growing organizations like yours improve efficiency and customer service. It can be deployed quickly and inexpensively without costly, complicated customizations or drawn-out implementation projects.

Key Benefits

- Significantly **reduce costs** and **improve productivity** by helping you streamline processes, reduce paperwork and eliminate manual data entry into multiple systems.
- **Improve decision making** by ensuring that all decisions are made from the same information using a common database and real-time, comprehensive reporting.
- More **accurately forecast customer demand** through easy access to past sales history, product trends, seasonality and current inventory levels.
- **Improve warehouse productivity** and manage inventory, orders and logistics more efficiently.
- Give employees, salespeople and managers **complete visibility** into orders, sales and shipping information, including comprehensive lot and serial number tracking.
- Easily maintain and share **always-accurate inventory data**.
- **Improve customer satisfaction** through faster and more accurate turnaround from order to shipment and easy access to order information.
- **Make fast, informed decisions** using information from Executive Dashboard reporting, which allows managers and employees to quickly see and understand how the business is performing based upon key performance indicators.

Business Solution Partners: A Commitment to Your Success

Whether it's fast-growing startups or multimillion-dollar enterprises, scores of growing companies have turned to Business Solution Partners for their business management and Microsoft technology needs. For more than 15 years we've been a leader in providing software and expertise to help today's organizations increase productivity, reduce costs and improve business efficiency.

The Business Solution Partners Difference

At Business Solution Partners, we understand that choosing the right technology partner can be a challenging task. You need a high-quality provider that has extensive experience, deep industry knowledge and innovative ideas. When you call on Business Solution Partners, you benefit from:

- **In-depth distribution and manufacturing industry knowledge.** With years of experience providing high-quality solutions to today's distributors and manufacturers, we have a deep understanding of the challenges you face and a dedication to helping you achieve business success.
- **Proven expertise.** As a Microsoft Gold Certified Partner, we have demonstrated expertise in developing, customizing and implementing high-quality business applications. Our highly trained staff includes CPAs and experts in manufacturing, distribution, workflow and process automation. Our consultants also hold the latest Microsoft certifications, which means they have the skills and knowledge to tailor solutions for your specific requirements.
- **A methodology for success.** We work closely with you to understand every aspect of your business, processes and workflows before we make product recommendations. Then we use a proven methodology to plan, design, build, test and deploy your solution.
- **Outstanding training and support.** Our commitment to your success doesn't end once your solution is up and running. We back our business applications with outstanding training and support to ensure that you realize the benefits of this powerful software for many years to come.
